### DETAILED ACTION

1. Amendment received June 30, 2005 has been acknowledged.

#### ***Claim Rejections - 35 USC § 112***

2. Claims 1 and 3-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification fails to provide an adequate written description of "on a condition that a transaction date is before an expiration date of the logo and/or on a condition that a transaction date is before a predetermined expiration date of the logo" as mentioned in claims 1, 8-11 and 13. *No new matter will be allowed to be entered into the specification or drawing figures.*

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 3-14, as best understood by the examiner, are rejected under 35 U.S.C. 102(e) as being anticipated by Krammer et al. The examiner believes that the claims are directed to figure 15 of applicant's drawing. Krammer's figures 3b and 16 show the same detailed statements with logos and details integrated into the display.

### ***Response to Arguments***

5. Applicant's arguments filed June 30, 2005 have been fully considered but they are not persuasive. The amendment filed June 30, 2005 introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: on a condition that a transaction date is before an expiration date of the logo and/or on a condition that a transaction date is before a predetermined expiration date of the logo. Applicant is required to cancel the new matter in the reply to this Office Action.

6. Applicants argument having been found unpersuasive, the rejection has not been withdrawn.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
